Get your PC-Horse license
for Abingdon-Witney College Students

This document contains a link that will give you a prepaid license for PC-Horse valid for the academic year 2019-2020. The license is provided as part of an agreement between PC-Horse and Emma Briggs, who is teaching Equine Nutrition at the College, and is meant for educational purposes.

1. Download

the installer to your Windows computer.

2. On your computer:

Run the installer (blue icon)
Start PC-Horse (orange icon)

When needed there are demos and an extensive manual on our homepage.

3. Activate with your license

Get your personal license here!

4. Future

If you want to continue using PC-Horse when the student license expires, you can extend it and choose which version you prefer in the future.

PC-Horse is a leading software program used by veterinarians, breeders, trainers, riding stables and horse feed manufacturers in Europe, as well as for Agricultural Colleges and National Universities teaching Equine Nutrition.

PC-Horse comes with feed analyses from leading vendors and a selection of generic feeds, thereby allowing you the opportunity to concentrate on what's really crucial:

Determine the nutrient requirements for your horses, balance their rations and feed them correctly.
